

Placer County
Wastewater Advisory Committee

Placer County Environmental Health ♦ 3091 County Center Dr. Suite 180 ♦ Auburn, CA 95603

AGENDA

March 2, 2010
4:30 p.m. to 6:30 p.m.
CDRA Cypress Room

Call to Order

I. Preliminary Items

- A. Roll Call and Determination of Quorum
- B. Introduction of Members and Guests
- C. Minutes Review
- D. Agenda Review

II. Action Items

- A. Proposal to Reduce frequency of Wastewater Advisory Committee Meetings to Quarterly

The Wastewater Advisory Committee By-Laws require regular meetings on a monthly basis, and no less than quarterly. During the review of the proposed draft onsite sewage ordinance, it was proposed to meet monthly to review the proposed onsite sewage ordinance. The review by the Wastewater Advisory Committee is complete and the urgency to meet monthly has diminished. There is increased pressure from management to reduce staff commitment for over-time activities. Therefore, Environmental Health Services requests to reduce the frequency of WAC meetings to a quarterly basis. The WAC may make a motion to support this proposal or propose an alternative.

III. Non Action Items

- A. Netafim Presentation – Mike Stoll

Mike Stoll from Netafim USA is requesting Placer County grant approval for Netafim Bioline drip line and its supporting products to be used in subsurface drip dispersal fields. Information will be handed out at the meeting. See also <http://www.netafim-usa-wastewater.com/>

- B. Alternatives to Drain Rock in Pressure Distribution Leachfields

Discussion suggested by Marc Lindbloom: Clean drain rock is becoming increasingly difficult to find. There are a couple of gravelless products out there that might make good alternatives.

- B. Legislative Update (Standing Item)

IV. Agenda Preparation for Next Meeting

V. Adjourn
